Learners will earn a relevant Statement of Attainment for units completed.

AQF Qualifications and Statements of Attainment are recognised at enrolment or during the course through the Recognition of Prior Learning and Credit Transfer process provided qualifications are relevant to the course undertaken.

Assessments are not a stressful activity. They are conducted in a relaxed and friendly atmosphere. Do not regard your assessment as an examination. Your Assessor simply needs to know which competencies from your course you have mastered, and which competencies require further practice and will be flexible in the assessment method used. In many cases, your assessment will be done while you are actually

completing work for the employer. The aim is to see you working over a period of time and applying the skills to your existing employer's workplace. It is in your long-term interests to ensure that all of the skills necessary for the job have been mastered; **our aim is to help you to learn those skills in the right way.**

Learners can apply for recognition of previous study, work, life and educational experience that matches the units of competency or qualification being considered.

Recognition is assessed on a case by case scenario prior to enrolment.

Learners applying for recognition of existing skills and knowledge must provide evidence to support their claim.

Examples of evidence might include but is not limited to: documentation such as certificates issued by other training organisations, support letters from employers; job description, resume or an outline of previous training and development. It is up to the Learner to decide on what evidence they feel is sufficient.

We also recognise the credentials issued by other training organisations operating under the VET Quality Framework.
